## Heads up

### Safe Exam Browser 2.1.3 for MacOS released

#### Now default version for MacOS in Inspira Assessment

SEB version 2.1.3 for MacOS was released July 23, 2018. This version includes important security and stability improvements. Updating soon is highly recommended.

#### Highlights

- New "[Config Key](#)" feature allowing an exam system to verify that the correct settings are being used. The Config Key can be generated server-side and doesn't change if same settings are loaded in a new SEB version which adds new setting keys.
- Added settings to disable Siri and dictation.
- Now blocking Touch Bar typing suggestions (predictive keyboard) during an exam.
- Improved compatibility of URL filter between SEB for macOS 2.1.3 and Windows 2.2.1.
- Implemented functionality for separate Allow Reload / Show Reload Warning / Allow Navigating setting for exam and additional browser windows.
- [Facilitated configuration of managed SEB Mac clients](#) which are used by multiple users.
- Fixed that SEB in some cases didn't switch off automatic spelling correction.
- Improved startup process and reconfiguration, for example double clicking a .seb config file several times can't lock SEB anymore.

### Internet Explorer 11 no longer supported

Beginning August 3rd, 2018, Inspira Assessment can no longer be accessed using Internet Explorer 11 or below. When navigating to Inspira Assessment using IE11, both student and admin user are now informed and encouraged to switch to a modern browser.

---

### In this release

## Test status field improved

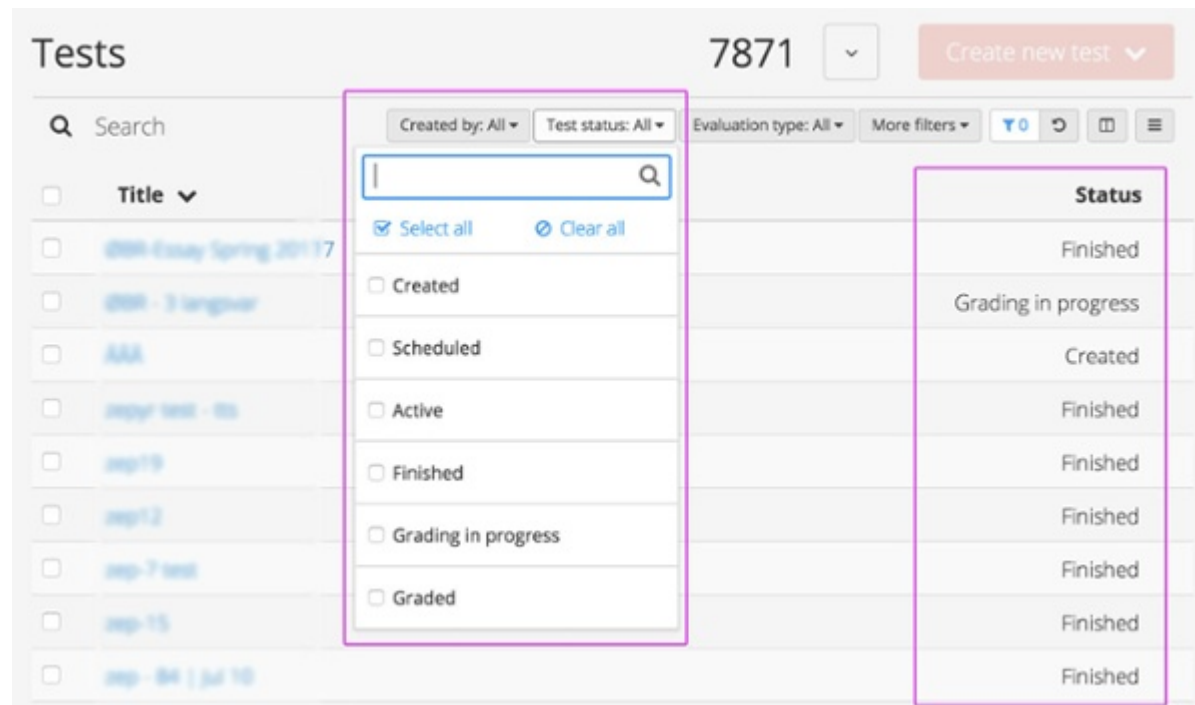

*Applies to lists and filters in Deliver, Monitor and Grade.*

The column *Status* in the list of tests now includes more values:

- Created
- Scheduled
- Active
- Finished
- Grading in progress
- Graded

Please note

- Any existing saved [Views](#) and [Dashboard Widgets](#) that includes the old test status types, might need to be updated.
- Due to candidate reindexing, the new status will be visible throughout all accounts within 24 hours.

The Test Status filter includes the same, new options.

## CSV user import extended

Requires activation. Included in all plans.

### Include org.unit memberships when importing admin and student users

When enabled, the new format is *First Name, Last Name, Email, OrgUnit, SSO*

### Update existing users using the CSV importer

Existing admin and student users can now be updated using CSV import.
