## **Inspera Assessment was updated 16th October 2017**

Welcome to Release Webinar Thursday 19th October 12.00 - 12.30 CET. [Sign up here](#).  
Next release is scheduled 10th November 2017.

The Inspera team

---

### **NEW FEATURES**

*\* Starred features require activation through Inspera Service Desk*

#### **New content lists**

**Important.** The new lists will not become available for all accounts at once. During the next month, content lists will be rolled out customer by customer, to ensure a controlled transition to the new and faster [Elasticsearch](#) content index.

You will hear from us when your account is ready to be updated.

Title	Type	Last Modified
write essay 2	Essay	2014-04-23T07:07:29
quiz	Multiple Choice	2014-01-02T12:01:31
js	Document	2014-01-02T14:16:09
url	Upload Assignment	2014-04-29T14:07:17
write 500 words	Essay	2014-01-24T14:46:35
Math Working	Math Working	2017-09-04T11:07:36

Questions, Question sets and Tests can now be listed using the same technology as Monitor (Elastic Search). This will give authors, admins and graders a faster, more effective and unified user experience.

## Randomized Sketch Codes

Randomised codes prevent sketches with single number errors to be attached to other candidates within the same test.

**No actions are needed** from your side. Existing sketch sheets, scanner applications and user guides will still be valid.

Need more paper? Visit [www.inspera.com/scantron](http://www.inspera.com/scantron)

Format - | B I U x<sub>2</sub> x<sup>2</sup> | T<sub>x</sub> | ✂ | 📄 | 📁 | ⬅️ ➡️ | ☰ ☷ | Ω | 📅 | ✎

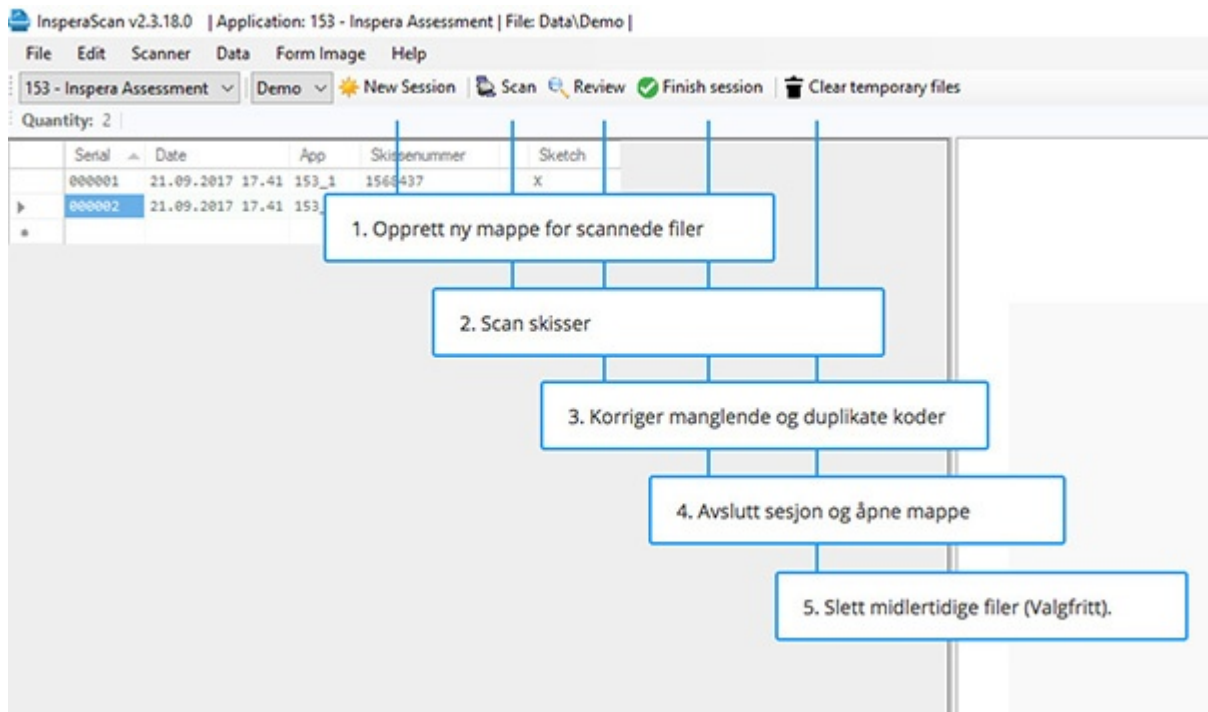

Words: 0/10

**Attaching sketches to this question?**  
Use the following code:

**7435423**

The new, random codes are valid until grading has been completed + 30 days. Please let us now if this should be extended.

**Inspera Scan\***

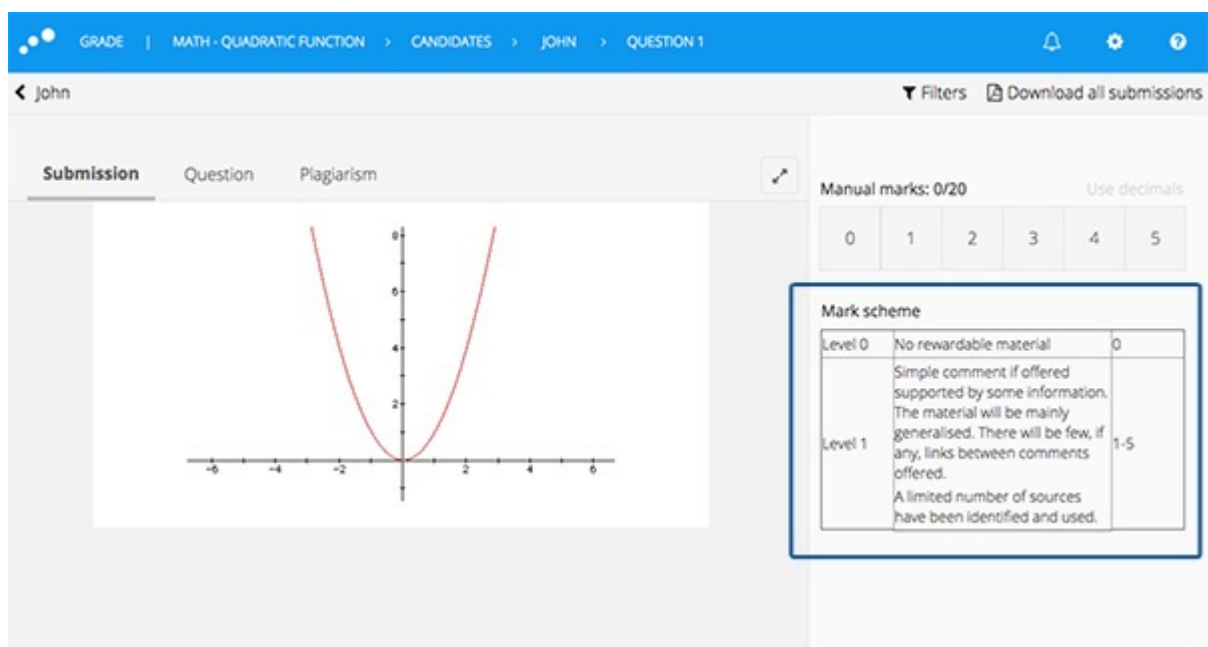

Inspera Scan is a PC application for scanning paper-based sketches with Scantron scanners. It can be used in addition to - or instead of ScanTools plus, for the following reasons:

- Colour support
- More robust form recognition
- Easier to use and optimised for the Inspera Sketch workflow

Please contact your Inspera project manager for more information.

## Question mark schemes\*

Question Mark Schemes support rich text, tables, math and images.

Mark schemes can now be added per question. The mark scheme is added by the author and is visible to the grader on the candidate submission page. To learn more, [click here](#).
