Release Note 25th August 2016

25th August 2016 Inspera Assessment was updated with the following features:

- Integration with **Urkund Plagiarism Control**
  Have a licence? Contact your Inspera project manager to activate

- Support for multiple **Feide realms** pr. account (Norway)

We have decided to extend user testing of the new candidate lists in Deliver and Monitor tools with one week. These updates will be available 1st September:

- **Deliver:** New candidate lists with improved navigation, performance and support for even larger exams.
- **Monitor:** All candidate actions available in Monitor. Batch operations and mobile support.

Discontinued support for old versions of Safe Exam Browser

We are continously focusing on cheat reduction and technical robustness. As part of this, we have planned to stop supporting some older versions of Safe Exam Browser.
From planned release 29th September, the following versions will no longer be supported:

- Safe Exam Browser 2.0.2 for Windows
- Safe Exam Browser 2.0 for macOS

Supported versions will then be:

- Safe Exam Browser 2.1.1 for Windows, *or*
- Safe Exam Browser 2.1.3 for Windows
- Safe Exam Browser 2.1 for macOS

Having questions about Safe Exam Browser? Don´t hesitate to contact us.
