Inspera Assessment was updated 5th May 2017

Welcome to Release Webinar Tuesday 9th May 13.00 - 13.45 CET. [Sign up here](#).

Next release is scheduled 16th June 2017.

In this email:

- Important information
- New features
- Improvements
- Postponed features

Have a nice day!

The Inspera team

IMPORTANT INFORMATION

Save the dates

The Inspera Seminar 2017 will take place 21th - 22nd September 2017.

Order sketch sheets at [Inspera.com/scantron](https://inspera.com/scantron)

At inspera.com/scantron you can now order:

- Blank sketch sheets
- 5mm grid sketch sheets
- Folders

Safe Exam Browser 2.1.5 for Windows released

Safe Exam Browser 2.1.5 for Windows improves mass deployment on managed computers significantly, with changes in the SEB installer and improvements in the management of config file encryption using X.509 certificates. SEB 2.1.5 also contains additional bug fixes for using specific permitted third party applications and fixes minor bugs and usability issues in the SEB Config Tool.

Supported SEB versions are now:

PC Windows 7 +	2.1.1	2.1.3	2.1.5
MAC OSX 10.10 +	2.1	2.1.1	

For more information, visit [System Requirements](#) in Knowledge Base.

Starred features require activation

As a general rule, new major features will need to be activated pr. institution. These features are *starred, but in the 7th April release note this could have been more clear. We apologize for this.

To activate starred features, raise a support request on [Service Desk](#).

We are retiring Inspera.no as a source of documentation

The Norwegian support pages at [inspera.no](#) will no longer be available. Existing links will not be broken, but will re-direct to [Inspera Hjelp og oppl ring](#)

Inspera offers documentation in three languages:

- [Inspera Knowledge Base](#) (English)
- [Inspera Hjelp og oppl ring](#) (Norwegian)
- [Inspera kunskapscentrum](#) (Swedish)

Please contact us if you have any questions.

NEW FEATURES

Reminder: Starred features requires activation. Send activation request to [Service Desk](#).

Carry out non-anonymous tests synced from FS (Norway)*

FS-tests only. It is now possible to carry out non-anonymous tests in Inspera Assessment.

▼ General settings

Test options

- Oral exam
- Enable auto submission (home exam) [Learn more](#)

Anonymization [Learn more](#)

- Anonymous.
Graders and planners can't see the real names of the candidates.
- Non-anonymous.
Graders and planners can see the real names of the candidates.

Anonymisation options for FS tests are found under General settings

Manage written explanation of grades*

Planners are now able to manage explanation of grades from within Inspera Assessment. Explanation settings are defined in Test Setup:

▼ Explanations

Written explanations of grades

- Enable administration of Explanations

Options

- Request explanations of all grades
- Allow graders committees to send explanations directly
- Set deadline for explanation

Explanation settings appear as a separate category in Test Setup

The new feature is extending the explanation status types from "Draft" and "Sent" to a complete life cycle:

- Not requested
- Requested - Planners has requested on behalf of candidate. Grader is notified.
- Draft - The explanation has been edited by a grader.
- Ready - Grader marks the explanation as Done and ready to be sent by planner.
- Sent - Explanation has been sent to the Candidate (Dashboard)
- Read - The candidate has visited the explanation page after it was sent.

Feature Highlights

- Request explanations on behalf of one or several candidates at once
- Request explanation of all grades up front
- Control whether graders are allowed to send explanations directly
- Set deadline for explanation to be sent
- View complete log of events for each explanation
- Subscribe to notifications for all explanation events
- Monitor and filter explanation "progress" across all test

Export of test results available*

Export of test results in JSON format is now available. To view a sample of available fields, [click here](#). These fields will be used in a general API for exporting results, currently under development. Please contact us if you would like more information, or have suggestions to additional fields.

Transfer grades back to FS (Norway) with *one click* *

Its two clicks actually, since you will need to confirm transferring all grades to FS.

The screenshot shows a web interface for 'LIT2320 1 Litterært fordypningsemne, epokestudium'. At the top, there is a blue header with 'VURDERING' and 'LIT2320 1 LITTERÆRT FORDYPNINGSEMNE, EPOKESTUDIUM'. Below the header, the title 'LIT2320 1 Litterært fordypningsemne, epokestudium' is displayed. Underneath, it says 'Synkronisert med ekstern test 3 kandidater og 1 kommisjoner Rediger'. A green bar indicates 'Ordinær vurdering fullført'. Below this, there is a status bar that says 'Klar for å overføre karakterer til FS' with a red button 'Overfør til FS...'. At the bottom, there is a section for 'Kommisjon 1' with 'Felles vurdering godkjent' and a link 'Vis vurderingsprotokoll'.

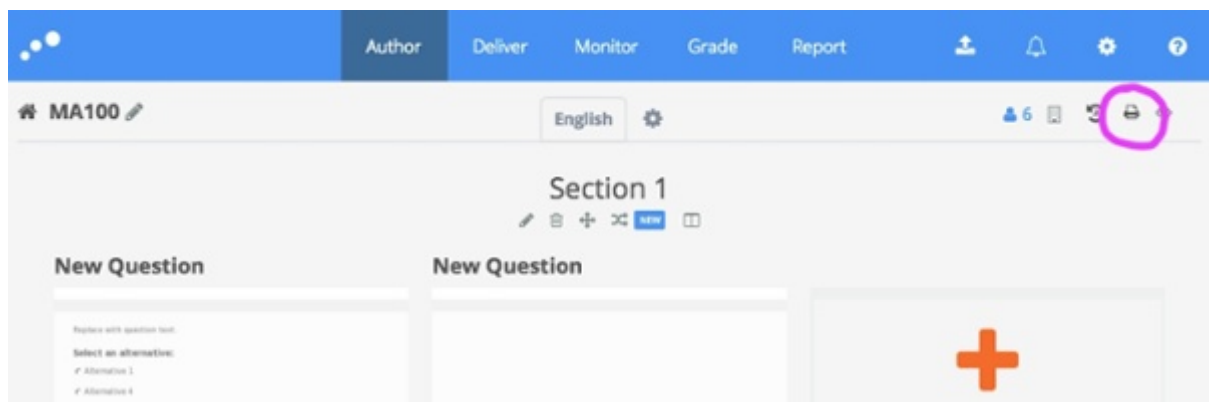

After Final grading has been completed, grades (protocol) can be sent back to FS by clicking on the new "Transfer to FS" button in the Grading overview page.

Please note:

- For all new FS tests created in Inspera Assessment, the Grade Scale is now automatically imported at initial FS-sync and cannot be edited in Inspera, since this could brake the grade transfer mechanism with FS.
- There is a possibility that some institutions are using FS grade scale references that we have not tested. Please contact us if any issues occur.

Author Print Manager

The Print Manager is now out of beta and renders Question Sets in a print friendly format.

The new print button is found next to the preview button

Print manager opens in a new tab:

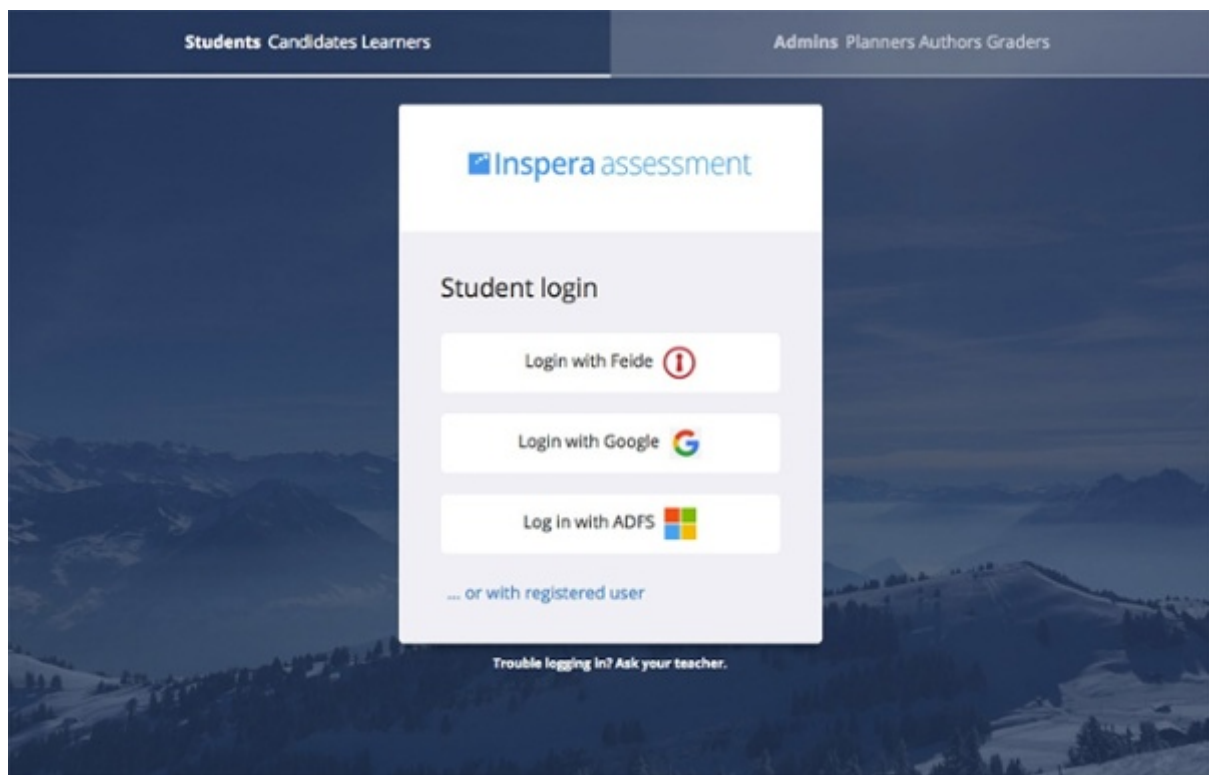

Use the print manager to control visibility of Table of contents, correct answers and marks in your document.

Feature highlights:

- Select language version to print
- Select between the following layout options:
 - Blueprint (correct answers)
 - Candidate hand-outs (questions only)
 - Custom

Login Tabs*

In InSpera Assessment students and admin users have separate login URLs. This has led to some confusion. You can now enable Login Tabs to make it more clear to your users, which login page they are visiting. The tabs also work as shortcuts between the pages.

Activate Login Tabs by sending a request through Service Desk

OTHER IMPROVEMENTS

- Scantron batch import: TIF files are no longer allowed.
- Scantron batch import: Hiding info about tests when sketch codes are wrong
- Scantron manual import: Fixed error that could occur when uploading sketches with codes in filename.
- Demo tests: Setup page improved (non-relevant options hidden)
- Exit SEB deprecated - new event "New Lockdown login"
- Possibility to show password for registered candidates (not SSO)

BUT WHAT ABOUT ...?

The following features have been postponed:

Feature	New release date
---------	------------------

<u>Allow candidates in SEB to change wifi network</u>	<u>16th June 2017</u>
<u>Monitor Templates</u>	<u>16th June 2017</u>
<u>Test Templates</u>	<u>July 2017</u>
<u>Randomized Sketch Codes</u>	<u>August 2017</u>
