### Automatic sync with FS and Ladok every 30 minutes

All tests created in FS or Ladok with start time within the next 12 months, can be synchronized with Inspira Assessment. Autosync is automatically enabled for all tests added, until the test window opens for candidates. As before, planners can turn autosync off at any time, and also manually synchronize between the auto-intervals.

**Please note.** Auto sync is also activated for tests already added to Inspira Assessment.

## New features in Monitor

### All you need is Monitor

#### Exam Day / Planners / Chief Invigilators / Invigilators

The Monitor tool has been upgraded and now includes all available actions for all candidates throughout the exam process, for both individual and group submissions. To access these actions, use the dropdown on the far right, or simply click directly on the candidate table row to open the new Quick menu.

*Say hello to mobile invigilation*

We made it easy to take any action on multiple candidates at once, using the check-boxes or by shift-selecting multiple rows. The Quick menu will display all actions allowed for the selected candidates.

## New features in Deliver

### Candidates have moved to Setup

**Exam Preparation / Planners:** The first thing you will notice in the updated Deliver tool is that "Candidates" no longer is a separate wizard step. Instead, you will find your

candidates in the first Setup screen.

The screenshot shows the 'Setup' screen for a test. The top navigation bar includes 'Author', 'Deliver', 'Monitor', 'Grade', and 'Report'. The main content area is titled 'Setup' and contains several input fields:

- Test name:** mock\_20160430\_1 1 mock\_20160430\_1
- Question Set:** Biologi - Essay
- Subject code:** mock\_20160430\_1
- Evaluation type:** Individuell skriftlig prøve
- Subject title:** mock\_20160430\_1
- Test opens:** 05-01-2017
- Standard closing time:** 2017 01:00 PM (highlighted with a purple circle and arrow)
- Duration:** No limit

Below the fields, it says '3 candidates' with a 'Manage' button and a link 'Learn more about the new lists'. At the bottom, there are two widgets: 'View all 3' and 'Extra time 0'.

*To add, view and edit candidates, select Manage or the View all widget.*

The new candidate list utilizes the whole screen, making it more convenient to manage multiple candidates at once.

The same actions as in the previous list is available here:

- Add and remove candidates
- Toggle individual / group submissions
- Manage groups and group membership
- Manage planned extratime
- Toggle spell checker pr. candidate

Useful tools previously only available in Monitor are now in Deliver too:

- Search candidates
- Advanced filters and saving Dashboard widgets
- Flexible coloumn layout

## All incidents are now managed in Monitor

### Exam day / Planners / Chief Invigilators / Invigilators

When activating a test, planners are redirected to the Activated page in the Deliver tool. Previously, candidate management was handled through the candidate list here. This list

has now been replaced by 4 widgets: View all, Submitted, Withdrawn and In progress.

The screenshot shows the Monitor interface for a test named MED100. The interface is divided into several sections:

- Navigation Bar:** Author, Deliver, Monitor, Grade, Report.
- Test Information:** Tests > mock\_20160430\_1 1 mock\_... Last synced 24 minute(s) ago - Update now 6 contributors Log Monitor
- Test Status:** MED100 is scheduled (Show/hide details)
- Candidates:** 3 candidates
- Widgets:** View all (3), Submitted (0), Withdrawn (0), In progress (0)
- Options:** (Show/hide details)

By clicking on any of the widgets, Monitor opens in a new tab, now including all candidate actions like:

- Open for resubmission
- Attach file
- Register attendance
- ID check
- View submission
- Edit extra time
- Exempt from SEB
- Upload offline submission
- Add candidates
